- **Key Projects:** University Management System, Polo Store, Mabco.

Education: B.sc in CSE Sonargaon University 2022

Language: Bangla: Native – English: Proficient

PROJECTS

❖ [Repwrap – Task Management System](#)

Role: Full Stack Developer | **Tech Stack:** Laravel, Next.js, MySQL, REST API

A robust task management platform supporting subtasks, real-time chat, automated reporting, leave management, live notifications, and smart reminders for enhanced team collaboration and productivity.

❖ [Tixe App – ARMY Training & Gear Sales System](#)

Role: API & Admin Panel Developer | **Tech Stack:** Laravel, MySQL, Next.js

Developed a secure RESTful API and dynamic admin panel for managing ARMY training modules, gear inventory, user roles, orders, and live analytics.

❖ [Battery Low Global – Multilingual Corporate Website](#)

Role: Full Stack Developer | **Tech Stack:** Strapi CMS, Next.js, MySQL

Built a multilingual website with dynamic content, internationalization (EN/NO), and CMS integration for a global tech brand.

❖ [The Financial Express – Financial News Portal](#)

Role: Contributor | **Tech Stack:** Laravel, Vue.js, MySQL

Enhanced performance and resolved production issues to improve accessibility and UX for one of Bangladesh's leading financial news sites.

❖ [DailyCricket – Real-time Cricket News Platform](#)

Role: Contributor | **Tech Stack:** Laravel, Vue.js, MySQL

Improved user engagement by optimizing UI/UX, fixing bugs, and implementing performance enhancements on this popular cricket portal.

❖ [Vhumiseba – Land Consultancy Platform](#)

Role: Full Stack Developer | **Tech Stack:** Laravel, Next.js, MySQL, CloudPanel, AmmarPay

Provided digital solutions for land validation, mutation guidance, and consultancy. Integrated real-time communication, secure payment, and full report management.

❖ [AI.3dgearguide.com – AI-Powered Blog & Image Generator](#)

Role: Full Stack Developer | **Tech Stack:** Laravel API, Next.js, MySQL

Developed an AI-driven platform leveraging OpenAI to generate SEO-optimized blogs and images with keyword-based inputs.

❖ [xdora.3dgearguide.com](#) – AI-Based Resume Builder

Role: Full Stack Developer | **Tech Stack:** Laravel, jQuery, Blade, Bootstrap, MySQL

Created a smart resume builder that offers real-time previews, intelligent content suggestions, and PDF export functionality.

Professional Strengths

- Strong debugging and optimization skills
- Logical thinking and attention to details
- Quick learner with a passion for clean code
- Effective communication and team collaboration
